Choose your Septic Inspection

- **Septic system locate only:**

Locate and mark, with spray paint or flags, the septic tank(s) and drainfield(s) on the property. - 1 Tank - 2 Tanks - Pump Tank - ATU

- **Septic tank only pumping & inspection:**

Locate & pump out the septic tank(s) on the property and inspect for cracks, holes, or damage to the septic tank(s). - 1 Tank - 2 Tanks - Pump Tank - ATU

- **Septic tank pumped & Drainfield checked/evaluated:**

Pump out septic tank(s) and inspect as above. Locate, inspect and evaluate the drainfield, note any damage to the drainfield, tree root intrusion, or potential problems that could prevent the drainfield from functioning properly. - 1 Tank - 2 Tanks - Pump Tank - ATU

- **Complete Septic System Certification:**

We will use form DH4016 in accordance with 64E-6 EHD requirements.

Using a customer supplied property survey, Sun Plumbing will locate, draw to scale the tank(s), and drainfield(s) on the survey and provide that customer a total of 3 copies. - 1 Tank - 2 Tanks - Pump Tank - ATU

Please make sure the water is on at the property for a proper pump out. Pumps & control boxes will be checked if electric is on.
